### Certification on BorPower products according to test report

Dear Sirs,

Our racing team has been using the BorPower product (with product code of S-250) on the vehicle

**Type:** Hyundai - Santa Fe, 2.2 l CDi, Turbodiesel,  
**Car delivery data:** 155 hp, 343 Nm  
**BY:** 02/2009

Driven kilometres:	0 to 15.000 km	15.000 to 30.000 km	30.000 to 45.000 km
<b>Oil consumption</b>	<i>without BorPower</i> About 1 litre	<i>without BorPower</i> 1 litre	<b>with BorPower S-250</b> the oil consumption has <b>not been measurable</b> with the oil level dip stick
<b>Fuel consumption</b> (Diesel)	<i>without BorPower</i> ranging from 10 to 10,2 litres		<b>with BorPower S-250</b> additive in motor oil after 4 complete fuel tank fillings (about 260 litres Diesel) and passing the initial break-in kilometres the fuel consumption <b>lowered to 8,3 to 8,5</b> <b>litres</b>
<b>Performance test</b> on All-wheel dynamometer, type Superflow SF880E, at 45.000 km (incl. 15.000 km with BorPower) at 2.045 rpm: 171 hp – equals to an increase of 16 hp = <b>Increase of power of 10,35 %</b>			
<b>Torque</b> according to car delivery data: 343 Nm at 45.000 km (incl. 15.000 km with BorPower): 422 Nm = increase of 79 Nm = <b>Increase of torque of 23 %</b>			

This is to certificate that based on our testing and our experience in using the product, we have achieved above listed results using the product. Please find attached according performance chart issued by Henni GmbH.

Signed for and on behalf of  
Kadach Racing Team
